

“Behold, I am doing a new thing: now it springs forth, do you not perceive it?
I will make a way in the wilderness and rivers in the desert.” Isaiah 43:19

Thank you for your interest in hearing about how to join us as we follow the Lord’s lead in doing a “new thing” in Dallas by planting the Downtown Women’s Medical Center!

The Lord placed a vision in our hearts over a year ago that the best way we can fight abortion is have a medical center that offers everything a woman would need for sexual health services and a successful, healthy full-term pregnancy. Then she would never have the need to enter the doors of a Planned Parenthood facility, our nation’s largest abortion corporation.

Your financial partnership helps to sow the seeds needed to bring this vision to a reality. We pledge to invest your treasure to grow a place where all women – from the young professional to the teen mom in foster care – will be treated with the best medical care that is due to one who has been created in the image of God.

We covet your prayers. They are greatly needed as we embark on a whirlwind Capital Campaign to raise the funds to purchase this building that we believe God has led us to as it meets so many specific needs: close to a DART rail station, just a little over a mile from our current Downtown Dallas location, an empty, cleaned-out shell ready for us to drop in a medical clinic, brand new roof, plumbing, sewer and HVAC and many more amenities!

After a search for over a year, and looking at countless properties, this particular location seems like a great fit! Will you please pray with us that God will provide every penny of the total \$2.5 million budget needed in our short time frame to purchase this building, finish it out and complete it with medical equipment and furnishings? We trust He will provide through His faithful people for us to serve women with a fully comprehensive, Christ-centered women’s health and wellness clinic.

If you know others you would believe would be interested in hearing about the Downtown Women’s Medical Center, please share this vision with them. And, please invite them to contact us at 214.969.2463 or ccline@firstdallas.org for more information.

We are so grateful for your consideration of seed planting for LIFE. We’ll water your seeds with prayer and look forward to seeing what the Lord will “spring forth” in due season!

Planting seeds of hope,
