19 LOOKING AHEAD

A WORD FROM OUR CEO

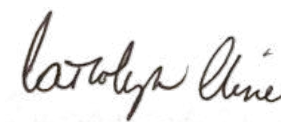

What a joy to celebrate 30 years of compassionately and effectively serving North Texas women from the core of Dallas! While we have grown in locations and vastly increased the menu of services provided, our mission to provide a safe and confidential place for women to be served through the heart of Jesus Christ has not changed so every woman might experience health physically, emotionally, and spiritually.

Your support provides the opportunity for women to experience our Lifestyle Medical Model (LMM). This Christ-centered medical practice is practical and easily applicable in teaching women how to make healthy choices in every area of their lives. Because we are all fearfully and wonderfully made in the image of our Creator, we are strongly motivated for women to discover this empowering truth

which offers them optimism and encouragement to move beyond their circumstances.

Our culture is filled with discouragement and hardships, yet your support of our work gives us a great opportunity to provide light in the darkness. Great days are ahead because Jesus' love offered through our caring, professional staff provides hope and healing!

In service of Christ,

Carolyn Cline, CEO

Our culture is filled with discouragement and hardships, yet your support of our work gives us a great opportunity to provide light in the darkness.

Testimonies

"For we are God's handiwork, created in Christ Jesus to do good works, which God prepared in advance for us to do."

Ephesians 2:10

It is our firm belief that every woman deserves to know her full worth and high value in the sight of her Creator. Each one of our staff has accepted the calling from our Creator to display the love of Christ to each patient so she might begin to understand she is fearfully and wonderfully made. We are blessed by the positive Google reviews our patients leave because we see evidence they have experienced a touch from our Father.

Recent Google Reviews:

“

10 out of 10- It was very intimate and judgement free. Everyone was kind from the start and easy to talk to and they explained everything perfectly. I definitely recommend if you're a person that likes to be alone or kinda nervous, it's perfect for you. They will make you feel welcome.

“

I love the staff here!!! Donna is the sweetest and it is always a pleasure seeing her first thing in the morning, she really sets the tone. Johanna and Jessie are amazing!!! I have had a couple different PAs but by far Jessie is the best!! She goes out her way to make sure you are comfortable and are KNOWLEDGEABLE on what she is saying/your results. I am super happy I have found them and I will continue to come here!!! If I could rate them 10,000 stars I would!!

“

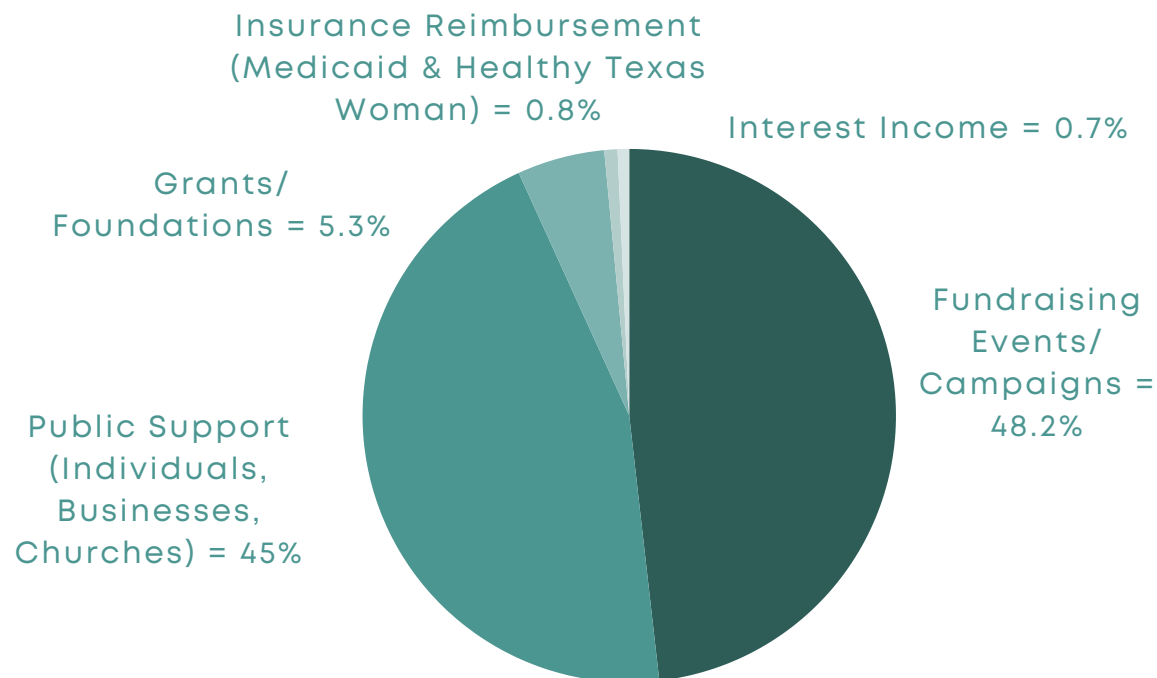

I'm extremely thankful for this facility, I did something very stupid 10 months ago out of anger and this facility is the reason I'm staring at my child today. I have a very hard time trusting people and was very stand offish, close minded, and rude when I first came...Nevertheless, now as I'm looking at my angel from GOD... I'm glad this place accepted me and were committed to helping me despite my attitude. If you've made a mistake, or didn't make a mistake, please reach out for their services. Thank you woman to woman.

supporter SPOTLIGHT

Dr. Lee & Mary Russell

“

Mary and I have been active supporters of the Woman to Woman Health Center (W2WHC) for over a decade, and I am currently serving on the Board of Directors. We joyfully commit our time and resources towards the mission of this amazing organization.

W2WHC fulfills God's ordination of the sanctity of human life and life in the womb specifically. We completely embrace the commitment to reach out to all women in our North Texas community with a life affirming message of God's love and the saving grace offered by Lord Jesus.

In addition, we stand behind the W2WHC vision to provide quality health care by continuing to expand our medical and social services in DFW by opening high-performing clinics to serve women in our community.

It has been our privilege to stand with the talented and committed staff at W2WHC, who serve with love and open hearts to all who come through our doors. We look forward to a bright and God-centered future.

“The greatest gift is a portion of thyself.” Emerson

Nick & Leslie Snyder

We have supported Woman to Woman Health Center financially and through volunteering for more than 10 years. Over the years, we have consistently been impressed by the staff's commitment to fiscal responsibility and quality care for their patients. As the organization has grown in size and scale, so has its commitment to make each woman who walks through the door feel seen, known, and loved. We are grateful for the opportunity to be a part.

Selfless support from our ministry partners encourages our staff to move forward in shining Christ's light to those who need a way out of the darkness.

“Live in such a way that those who know you, but don’t know God, will come to know God because they know you.”
Author unknown

“Let your light shine before others, that they may see your good works and glorify your Father in heaven.”
Matthew 5:16

EMPOWERING WOMEN'S *Reproductive Health*

A Reflection of God's Masterpiece

At Woman to Woman Health Center, we believe that every woman is a unique creation of God, designed as His masterpiece. Grounded in the truth of Ephesians 2:10, which reminds us that we are God's handiwork, we are dedicated to providing women with the care and resources they need to flourish in every aspect of their health, especially in reproductive health.

"For we are God's handiwork, created in Christ Jesus to do good works, which God prepared in advance for us to do" (Ephesians 2:10). As God's masterpieces, women are made with purpose, dignity, and a calling to wholeness. Our mission is to reflect this truth by offering compassionate, holistic care that empowers women to experience the fullness of life and health that God has lovingly planned for them.

Our Vision

We envision a world where every woman recognizes her intrinsic value, experiences both physical and emotional well-being, and is equipped with the knowledge and resources to make informed decisions about her reproductive health. Through education, advocacy, and compassionate care, we strive to empower women to honor their bodies, celebrate their fertility, and make reproductive choices that align with God's divine plan for their lives.

CORE PROGRAMS & Services

**COMPREHENSIVE EDUCATION
ON REPRODUCTIVE HEALTH**

**ACCESS TO SAFE REPRODUCTIVE
HEALTH RESOURCES**

HOLISTIC CARE & SUPPORT

COMMUNITY EMPOWERMENT

COMPREHENSIVE EDUCATION

on Reproductive Health

Understanding our bodies is the foundation of empowered decision-making. Through provider visits, outreach events, and personalized counseling, we offer education on reproductive well-being, covering the health and functioning of the reproductive system, including fertility, pregnancy, and the prevention and treatment of related issues. Our educational resources blend medical knowledge with biblical principles, fostering a holistic understanding of God's divine design for the human body.

HOLISTIC CARE & Support

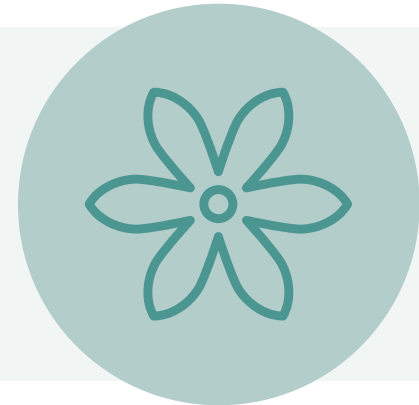

Our dedicated team of compassionate providers, counselors, and staff provides women with comprehensive support—physical, emotional, and spiritual—through every stage of their reproductive journey. Whether guiding women through well-woman exams, pregnancy, or postpartum care, we honor each woman as a unique individual, deserving of care that nurtures her whole being. Recognizing the sacredness of every life stage, we walk alongside women with love, respect, and unwavering commitment to their well-being.

ACCESS TO SAFE

Reproductive Health Services

We are dedicated to ensuring that every woman, regardless of her background, has access to vital reproductive health services. From pregnancy diagnosis to postpartum family planning, we offer resources that honor both the unique needs of women and God's divine purpose for their lives. Our commitment extends beyond care as we advocate passionately for life-affirming women's rights, striving to ensure that all women have access to healthcare that nurtures their physical, emotional, and spiritual well-being while upholding their inherent dignity.

COMMUNITY

Empowerment

Through our outreach programs and partnerships with local schools and churches, we cultivate a deep sense of community and solidarity among women. We believe in the transformative power of shared experiences and the strength that comes from walking in faith together. By nurturing these relationships, we not only support women on their individual health journeys but also create networks that magnify our collective impact, advancing reproductive health throughout all stages of life.

KINGDOM *impact*

Over the past year, our programs have touched the lives of 836 women, empowering them with the knowledge and resources to take control of their reproductive health.

One woman, Mauricia, came to us during a challenging struggle with severe morning sickness, which led her to consider terminating her pregnancy. With our medical support, she found relief from her nausea and was able to see a detailed ultrasound image of her baby. In that moment, she saw her baby's hand, as if he was reaching out asking her to choose life. Inspired by this profound bonding, she chose to embrace motherhood and later experienced the incomparable joy of bringing new life into the world. In her journey, God's purpose for her life developed, helping her feel deeply cherished as His masterpiece.

Our gynecological patients have shared life-transforming experiences with us as well. Offering a variety of services increased our mission field through screening for life-threatening diseases such as cervical cancer. This testing, traditionally known as a "pap smear," is vital in detecting early changes that can lead to cancer. Most of our patients have not experienced in-depth conversations about the purpose of this testing and the lifestyle choices that increase their cancer risk. Equipped with gratitude and greater understanding, many patients have now made different lifestyle choices that positively affect not only their physical, but also emotional and spiritual health.

STAFF *spotlight*

Jenny Villanueva, RN
Staff Nurse and Sonographer

Having joined our staff 10 years ago, Jenny has always loved seeing the lives of our patients transformed by the Holy Spirit from brokenness to steps towards wholeness as they are served in our health center. She delights in seeing the impact in women's lives as the Lord uses her as His tool in helping patients find the right path.

Your support of our expansion of medical services excites Jenny not only in helping women find physical health, but she loves our emphasis on education in helping women learn the value of good health choices. Jenny points out that the addition of gynecological services provides the ability to establish long-term relationships with patients, something she highly treasures.

Seeing Jesus Christ as the Master Designer, Jenny shared, "It is amazing what the Lord saw ten years ago when He led me to Woman to Woman Health Center as a volunteer. He knew the whole picture He was painting in my life, and I had no idea this would be where He would firmly plant me to serve."

"God used the staff here to see great potential in me that I did not see at that time. I want our patients to know and feel they too have great potential." We are so grateful the Lord led Jenny to W2WHC and that she serves our patients with such graciousness and care.

Loving Relationships Give Life!

Ganiyat is one of our delightful patients who has been coming to us for the past seven years through the birth of her three beautiful daughters: Praise, Precious, and Providence. As transplants from Nigeria, Joseph and Ganiyat truly exemplify the reason we love to serve women in North Texas.

Through your faithful provision, we have developed a strong relationship with Ganiyat and Joseph as they have walked through seemingly impossible circumstances. Ganiyat explains, “This place is something special – not common at all. They are always there for you, and it has been a wonderful experience.”

Soon after Ganiyat gave birth to her third daughter, she suffered a major fracture in her femur that required extensive surgery with the placement of three rods to stabilize her leg. Her

prognosis was questionable, being told that many with that kind of fracture often remain in a wheelchair. “Your love and prayers for me were answered. God made a way when it seemed there was no way.”

Sharing about her relationship with our staff member Donna, she stated, “Donna prays for me all the time. She calls me and encourages me. I’m stronger now than before the surgery because God came through. God’s love from this agency helped me recover faster than the doctors expected.”

Your support of our educational programs and generous material assistance through donating diapers, wipes, baby bath wash and lotion are greatly appreciated by these two hardworking parents. “I tell my friends this place provided the diapers, wipes, and clothing for all three girls. The baby crib I received with my first pregnancy is beautiful, and I used it with all three of my babies.”

Ganiyat wisely shared, “There is danger in loneliness – this place is like my family.” She further explained, “When people treat you like family, you can open up your heart. I really appreciate God leading me to a place that exalts Christ. Here they are cheerful givers – they give to people with love. All the education has been so helpful. It has great details of what to do as a good parent. It is what a family needs.”

Her Patient Services Consultant, Donna, responded to Ganiyat’s comments, “Ganiyat has a love for learning, and our conversations come so naturally. She welcomes prayer, and her consistent prayer request is ‘for her family to know Jesus more.’”

Ganiyat enthusiastically shared, “I go to the church you told me about. My family is there every Sunday. My girls love going to church! I think all the babies you are helping will come back someday and be the next generation to work here!”

From your lips to God’s ears, Ganiyat! We are grateful to each of you for providing the means which allow our staff to love our patients well in the name of Jesus!

“There is danger in loneliness – this place is like my family...When people treat you like family, you can open up your heart. I really appreciate God leading me to a place that exalts Christ. Here they are cheerful givers – they give to people with love.” Ganiyat

LOOKING *ahead*

As we continue to grow, our mission remains the same: to serve women as God's masterpieces, providing them with the spiritual care, love, and compassionate support they need to live healthy and empowered lives. In the coming year, we plan to expand our reach by being open more days at our health center in the southern sector and opening our Garland Health Center in the 4th quarter of 2025, ensuring that more women experience the transformative power of physical, spiritual, and emotional support with compassionate, life-affirming care.

At Woman to Woman Health Center, we are honored to be a part of God's work in the lives of women. We are committed to empowering women's reproductive health, recognizing that each woman is a unique creation, fearfully and wonderfully made. As we continue to serve, we hold fast to the belief that by caring for women's health in body, mind, and spirit, we are contributing to God's kingdom work here on earth.

Thank you FOR YOUR
CONTINUED SUPPORT. TOGETHER, WE
CAN MAKE AN EVEN GREATER IMPACT,
one woman at a time.
